

Guastavino in Pittsburgh

Lecture 3: Geometric Innovations in Architecture (2022.05.24)

Osher Lifelong Learning Institute
at Carnegie Mellon University
Matthew Schlueb, Instructor

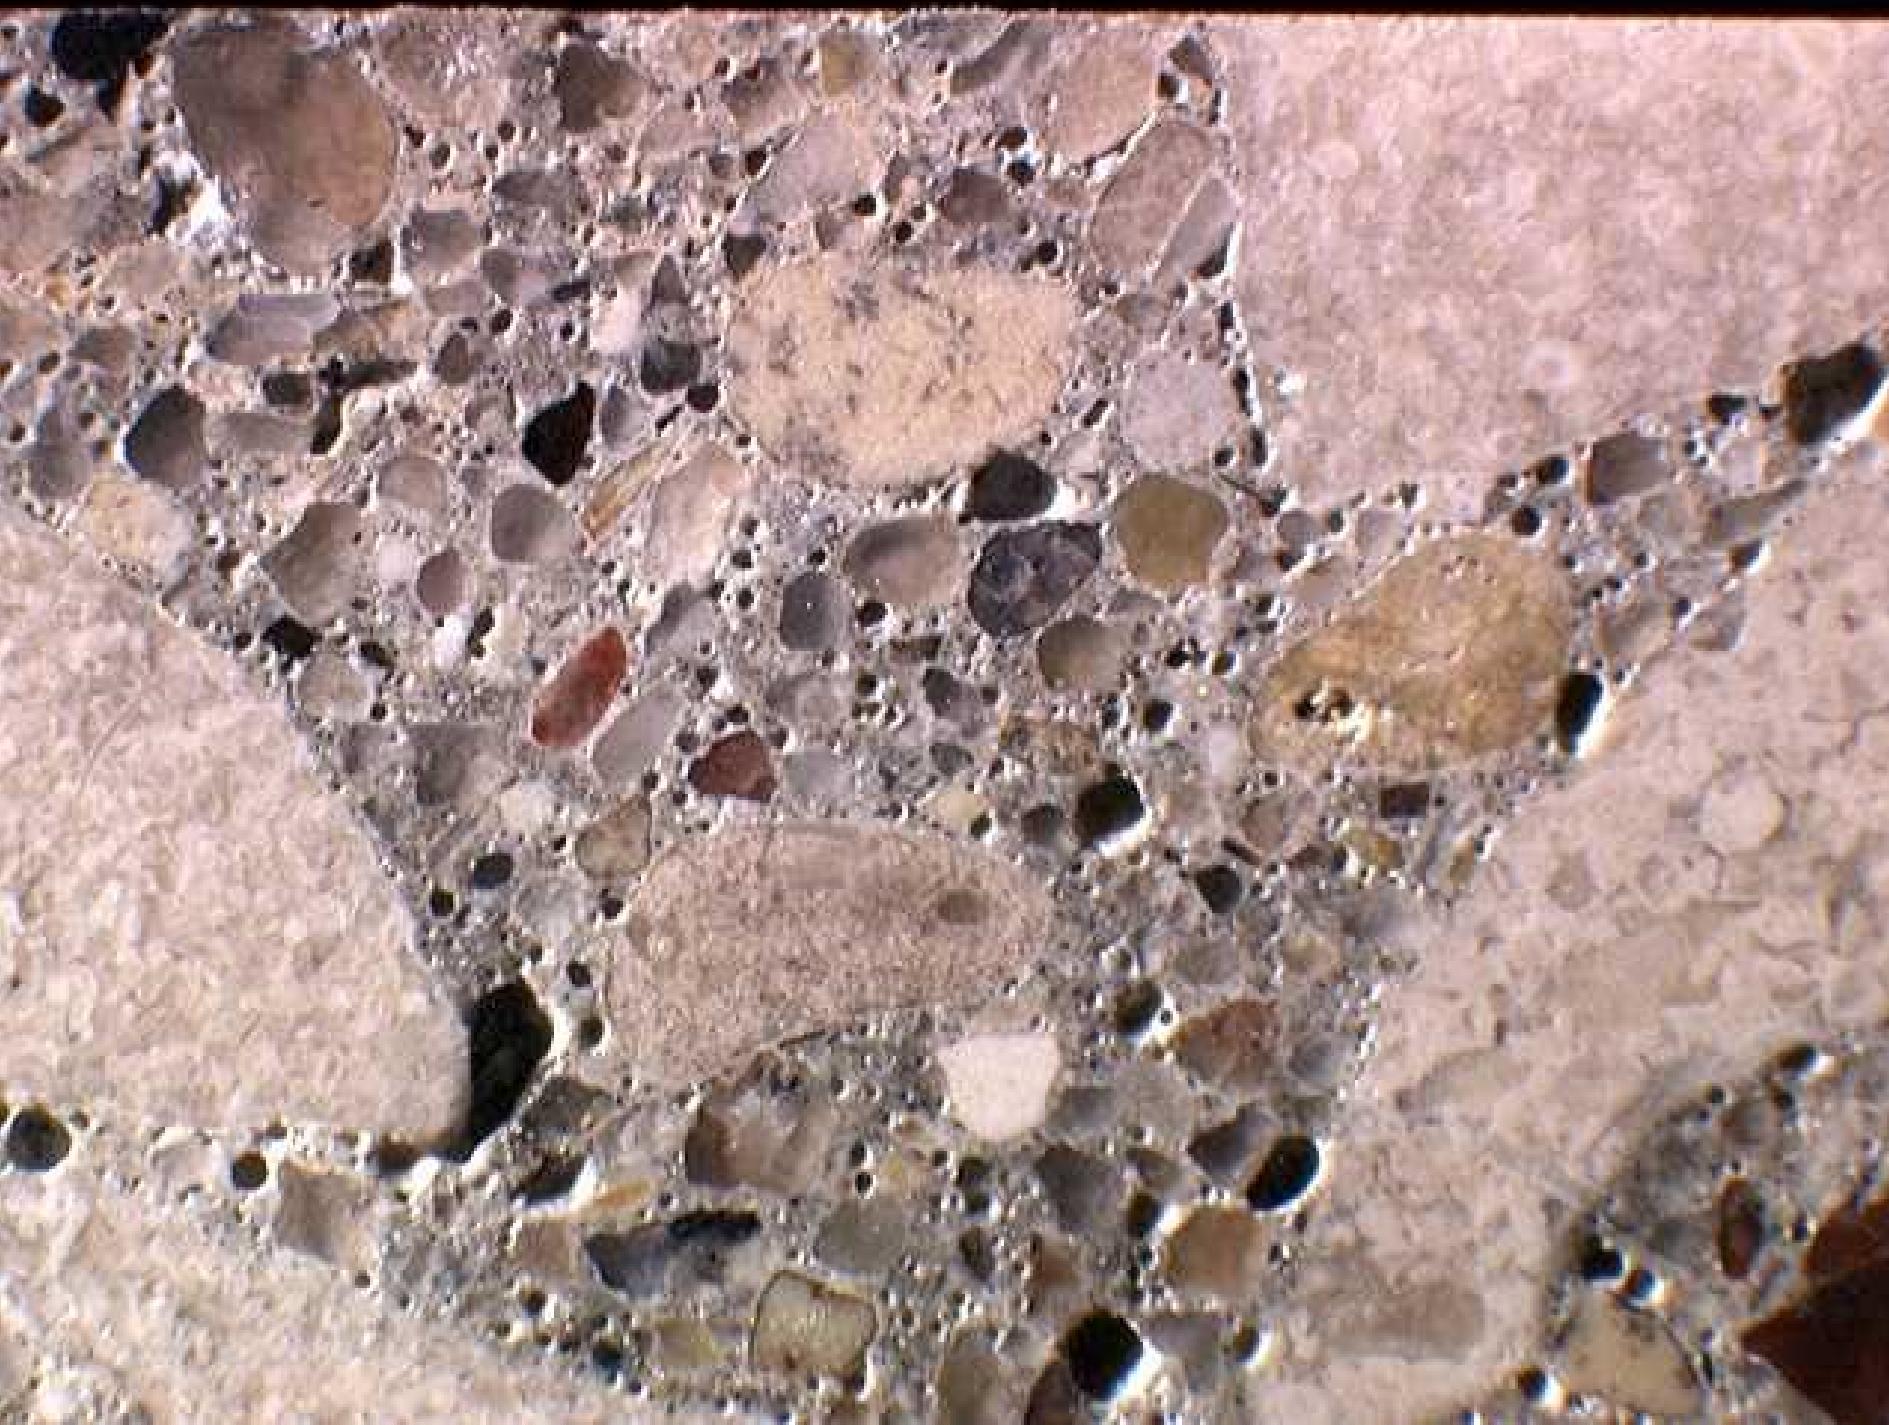

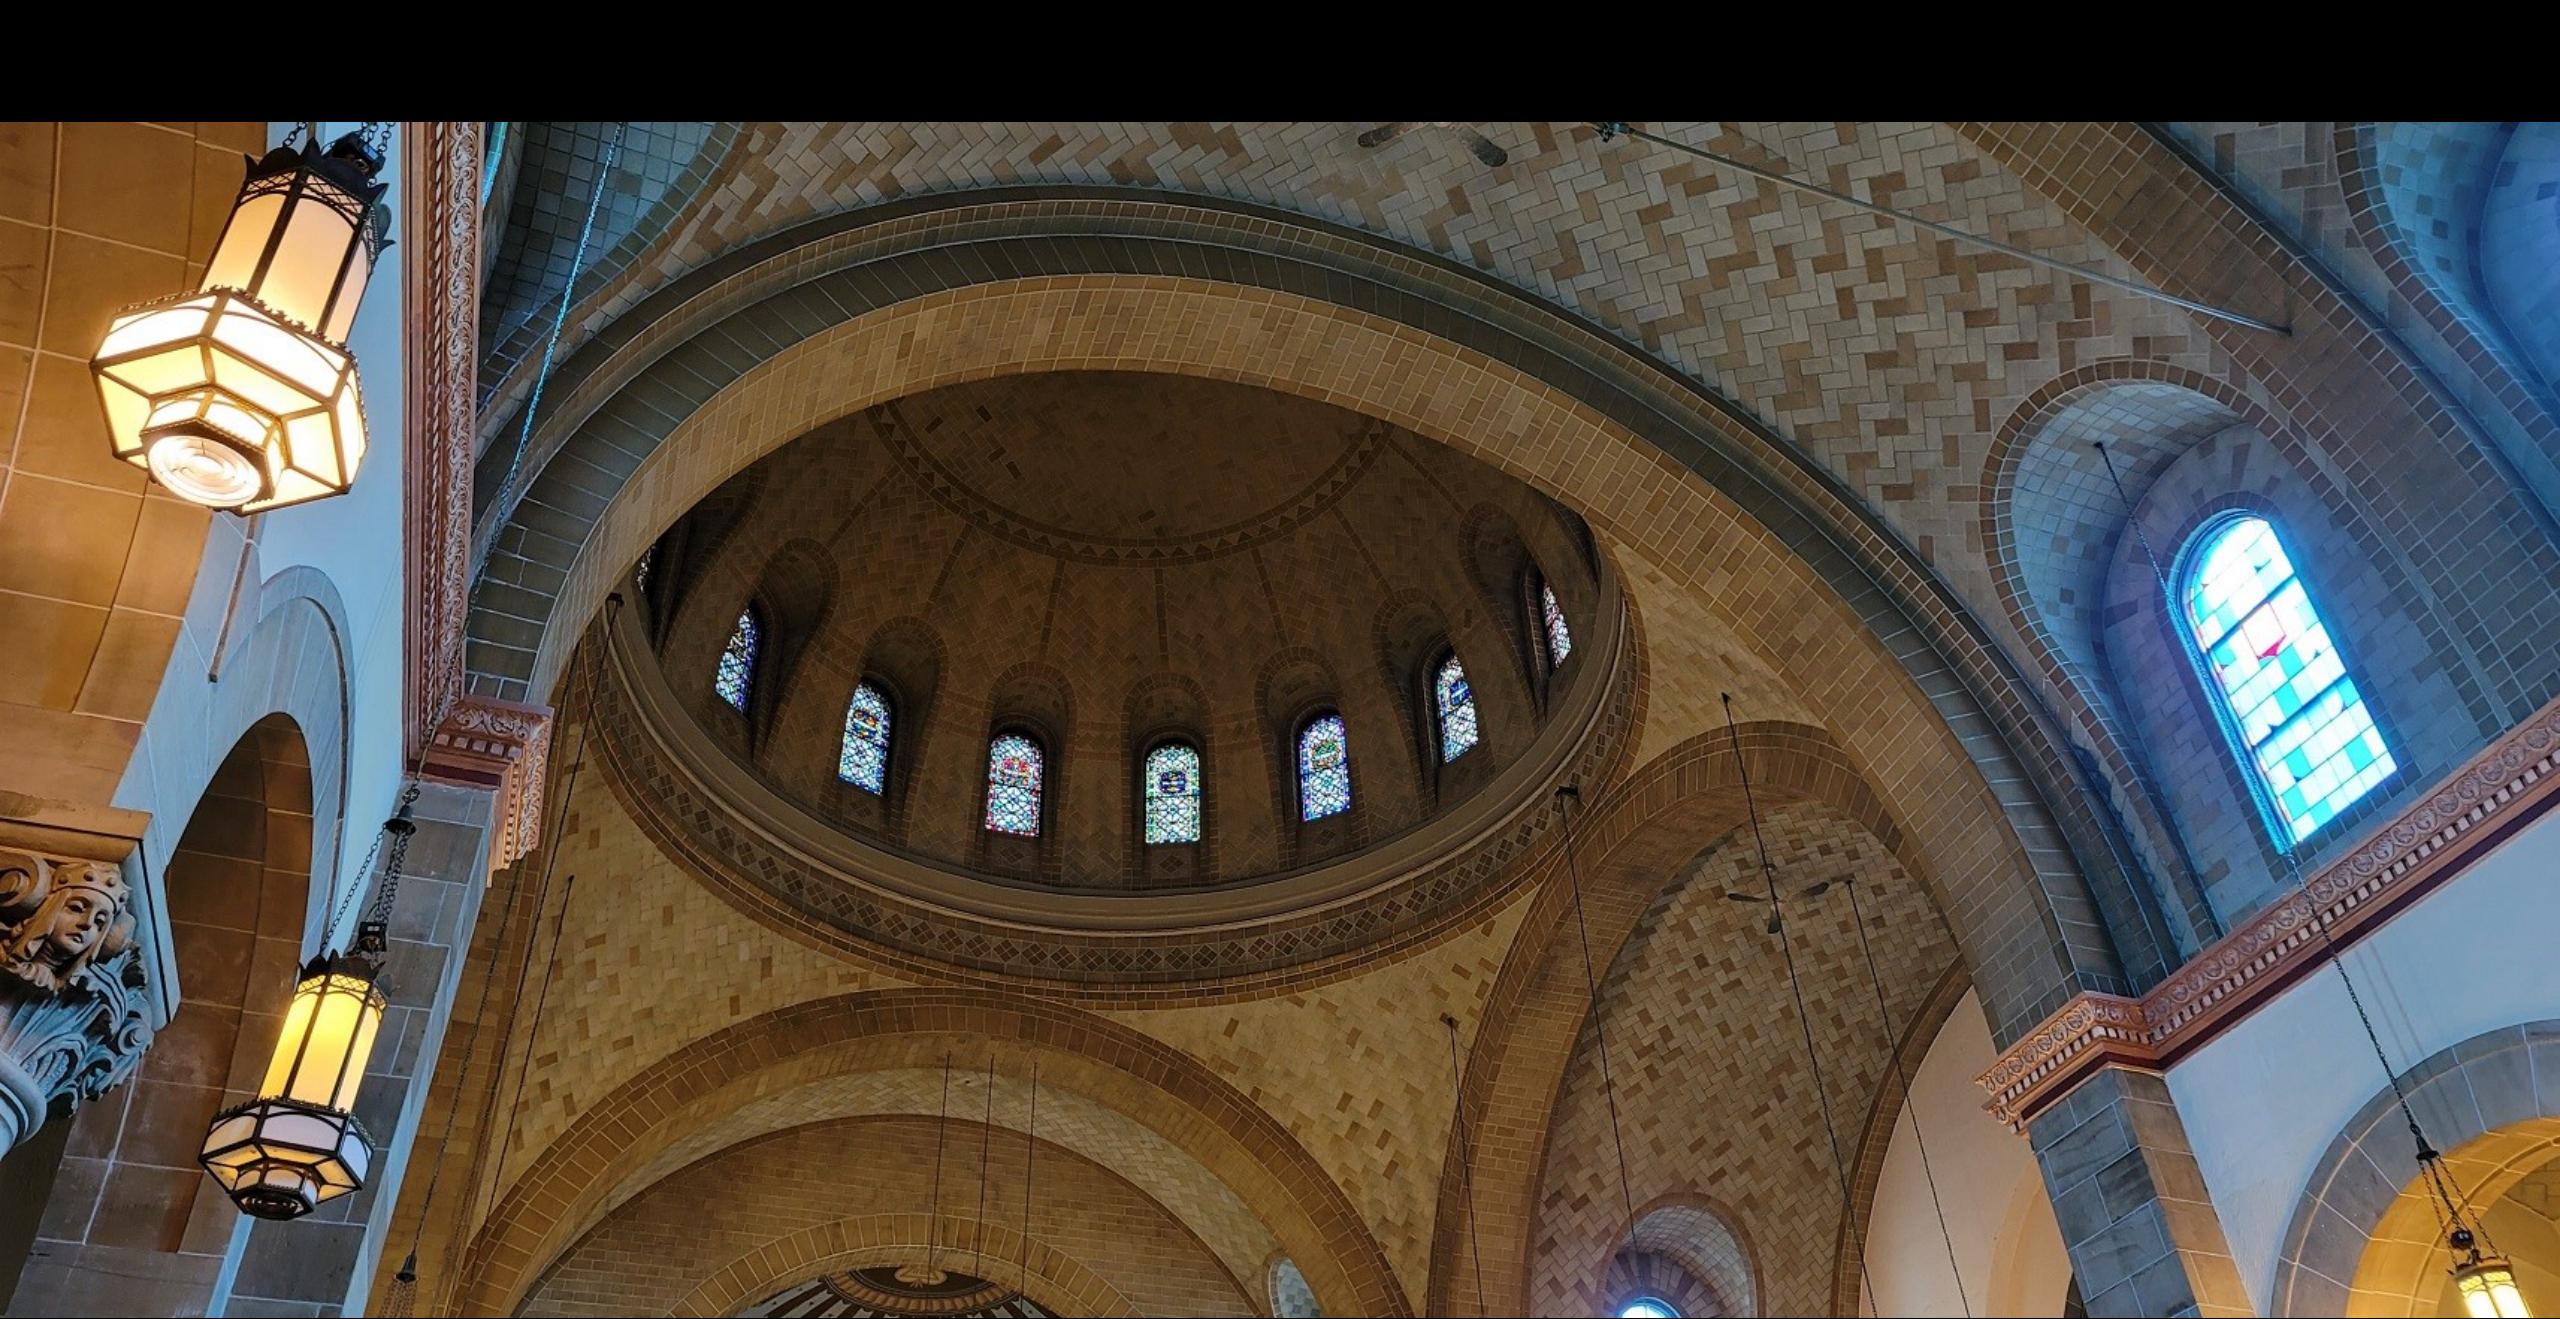

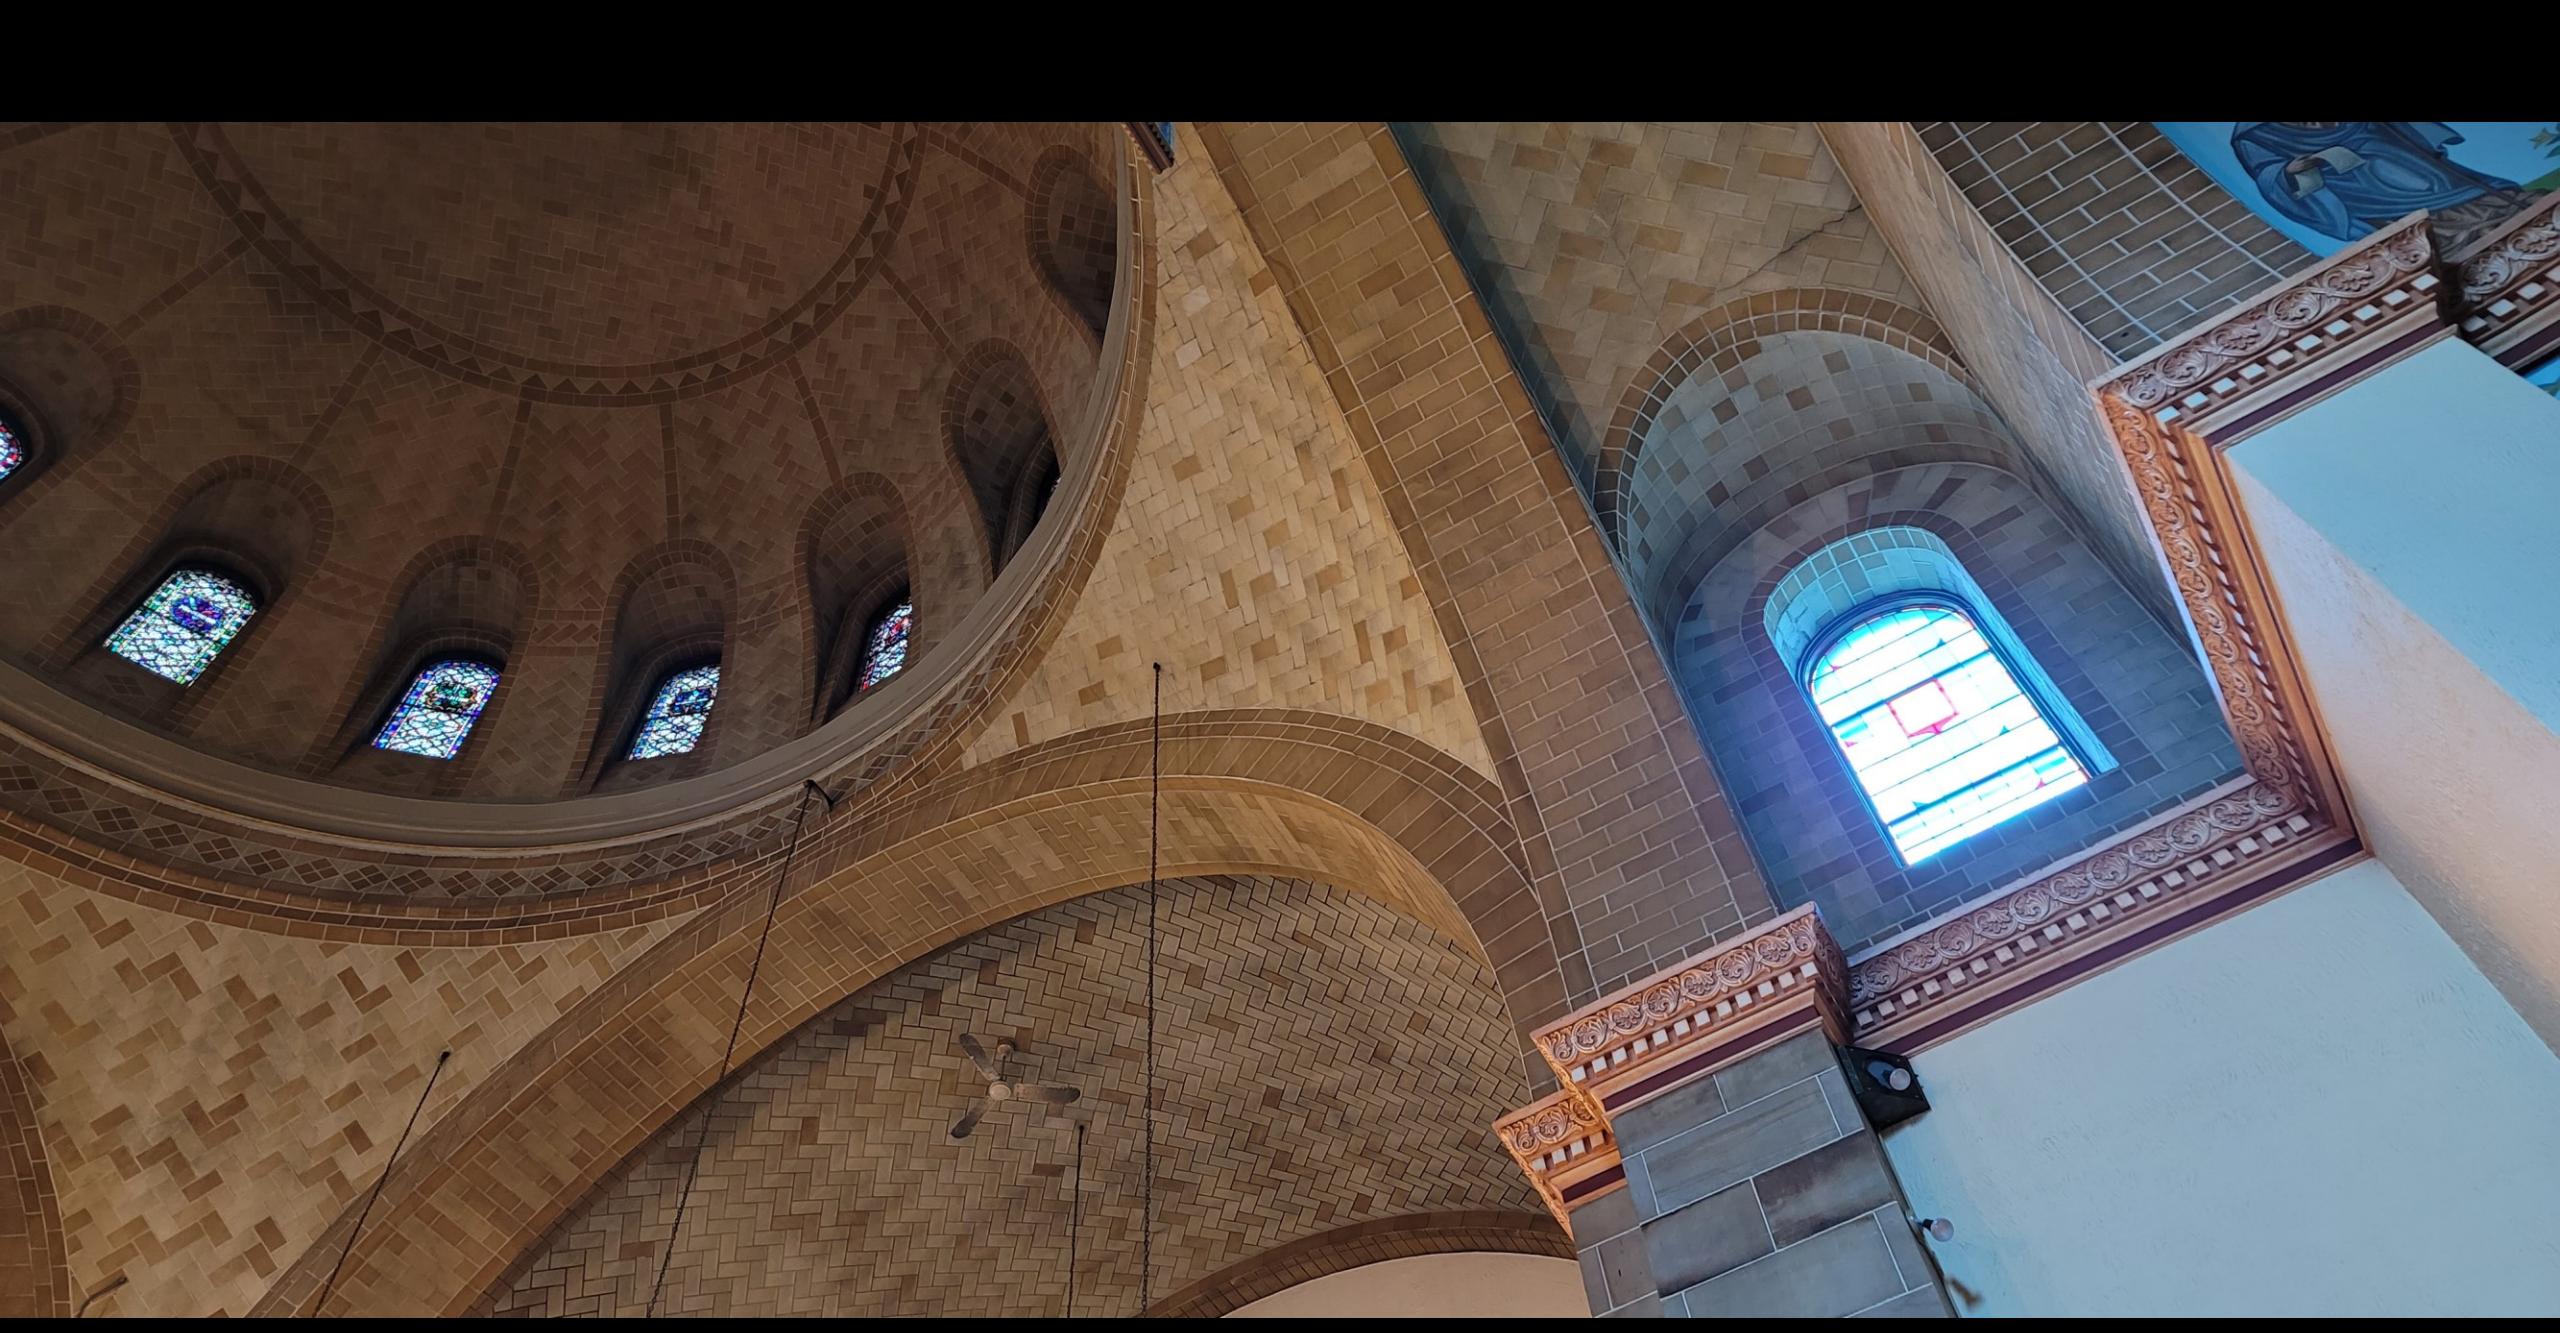

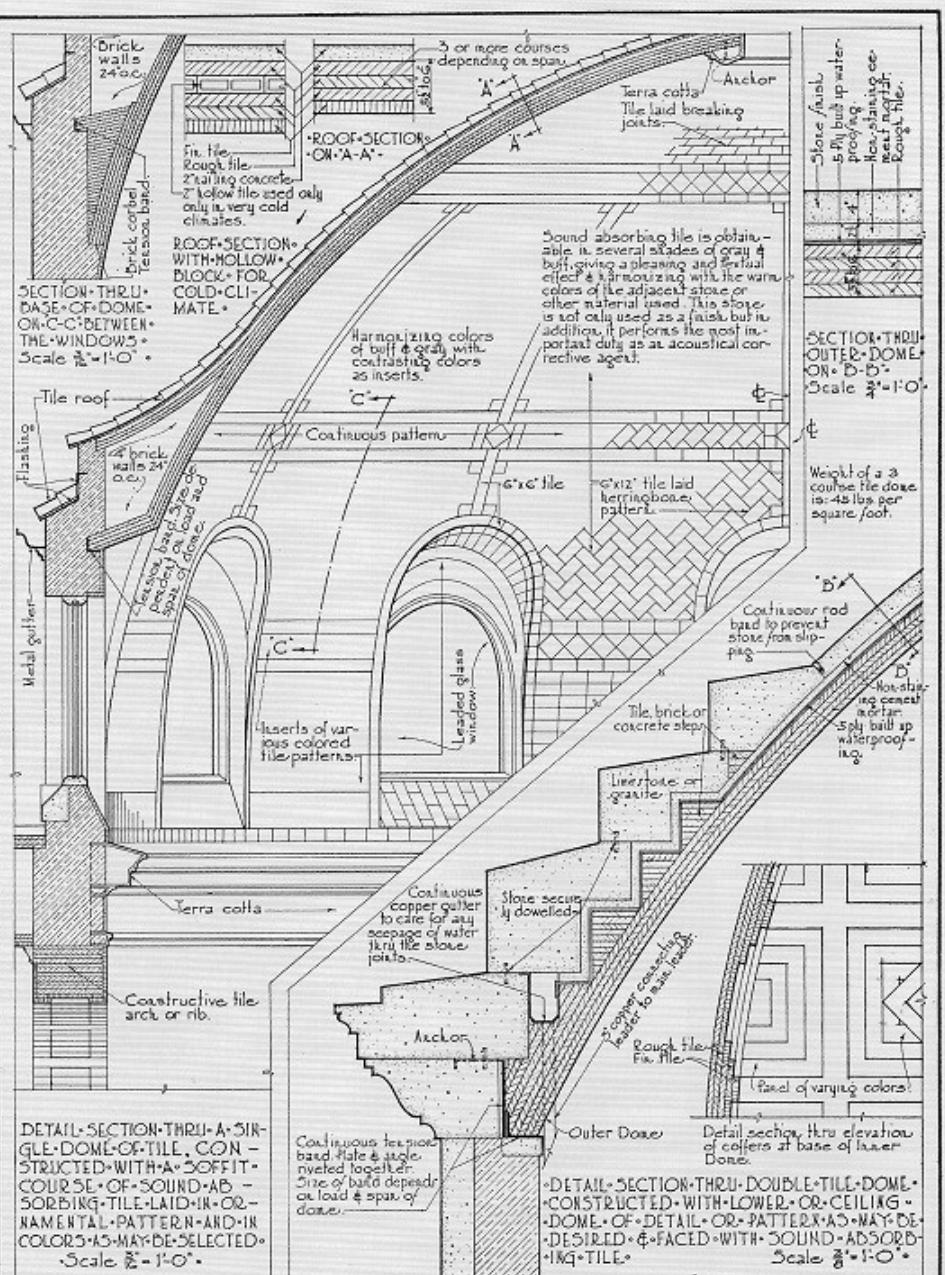

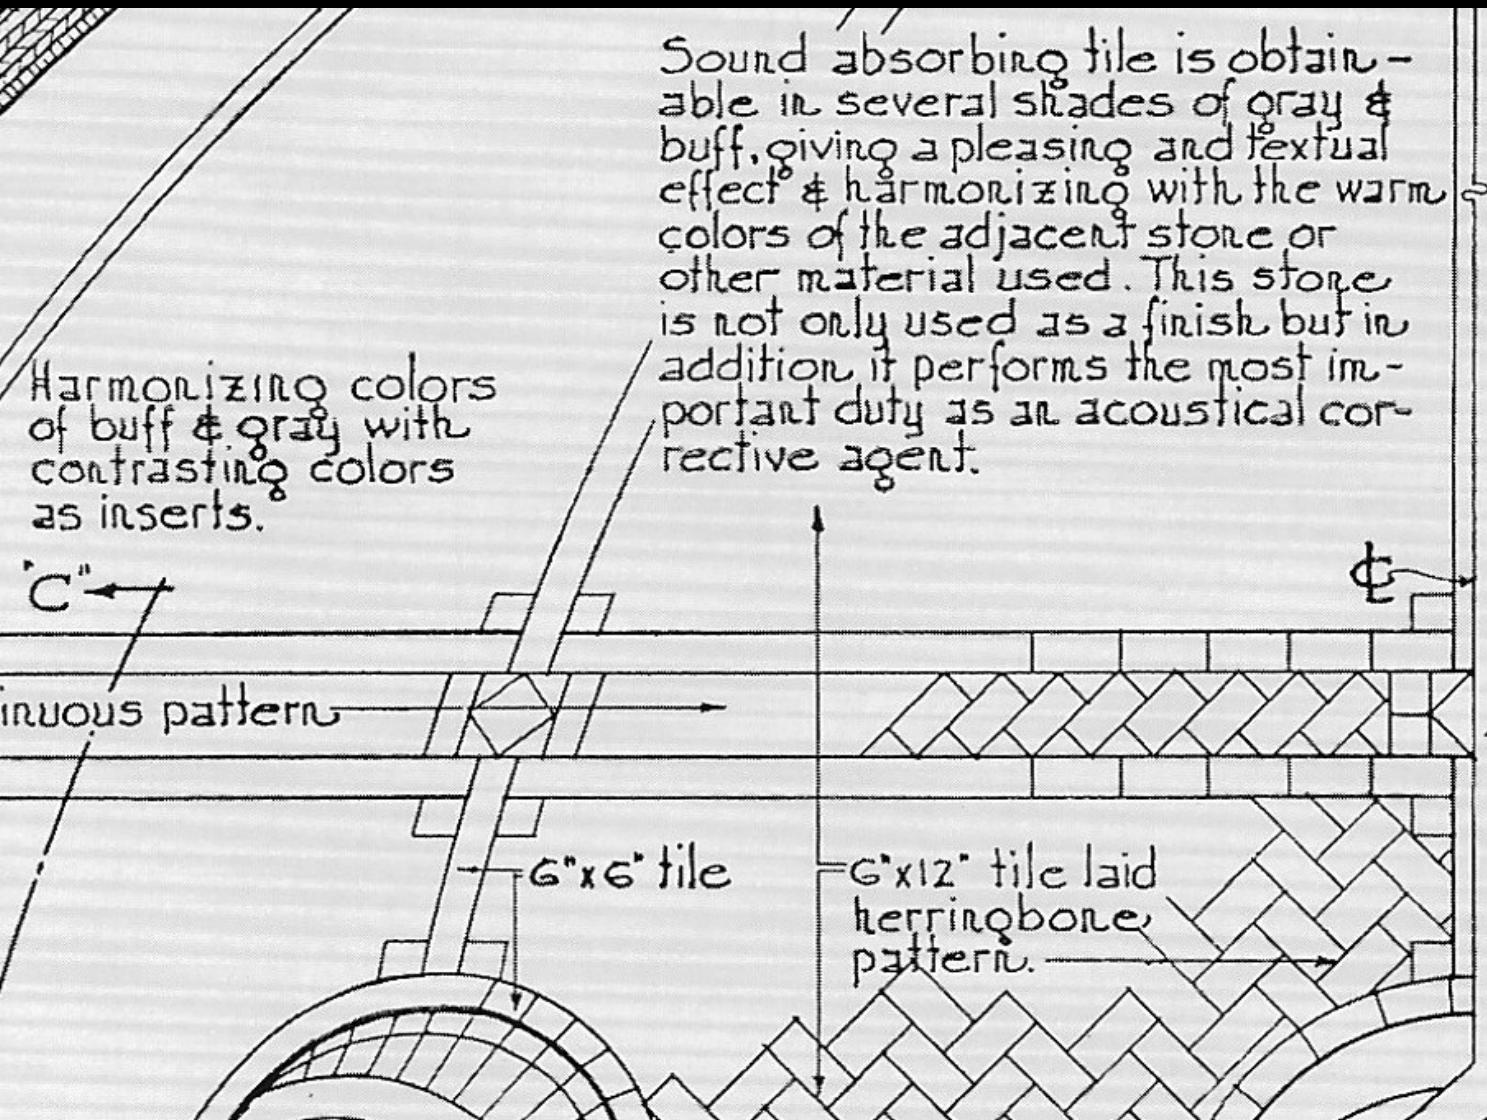

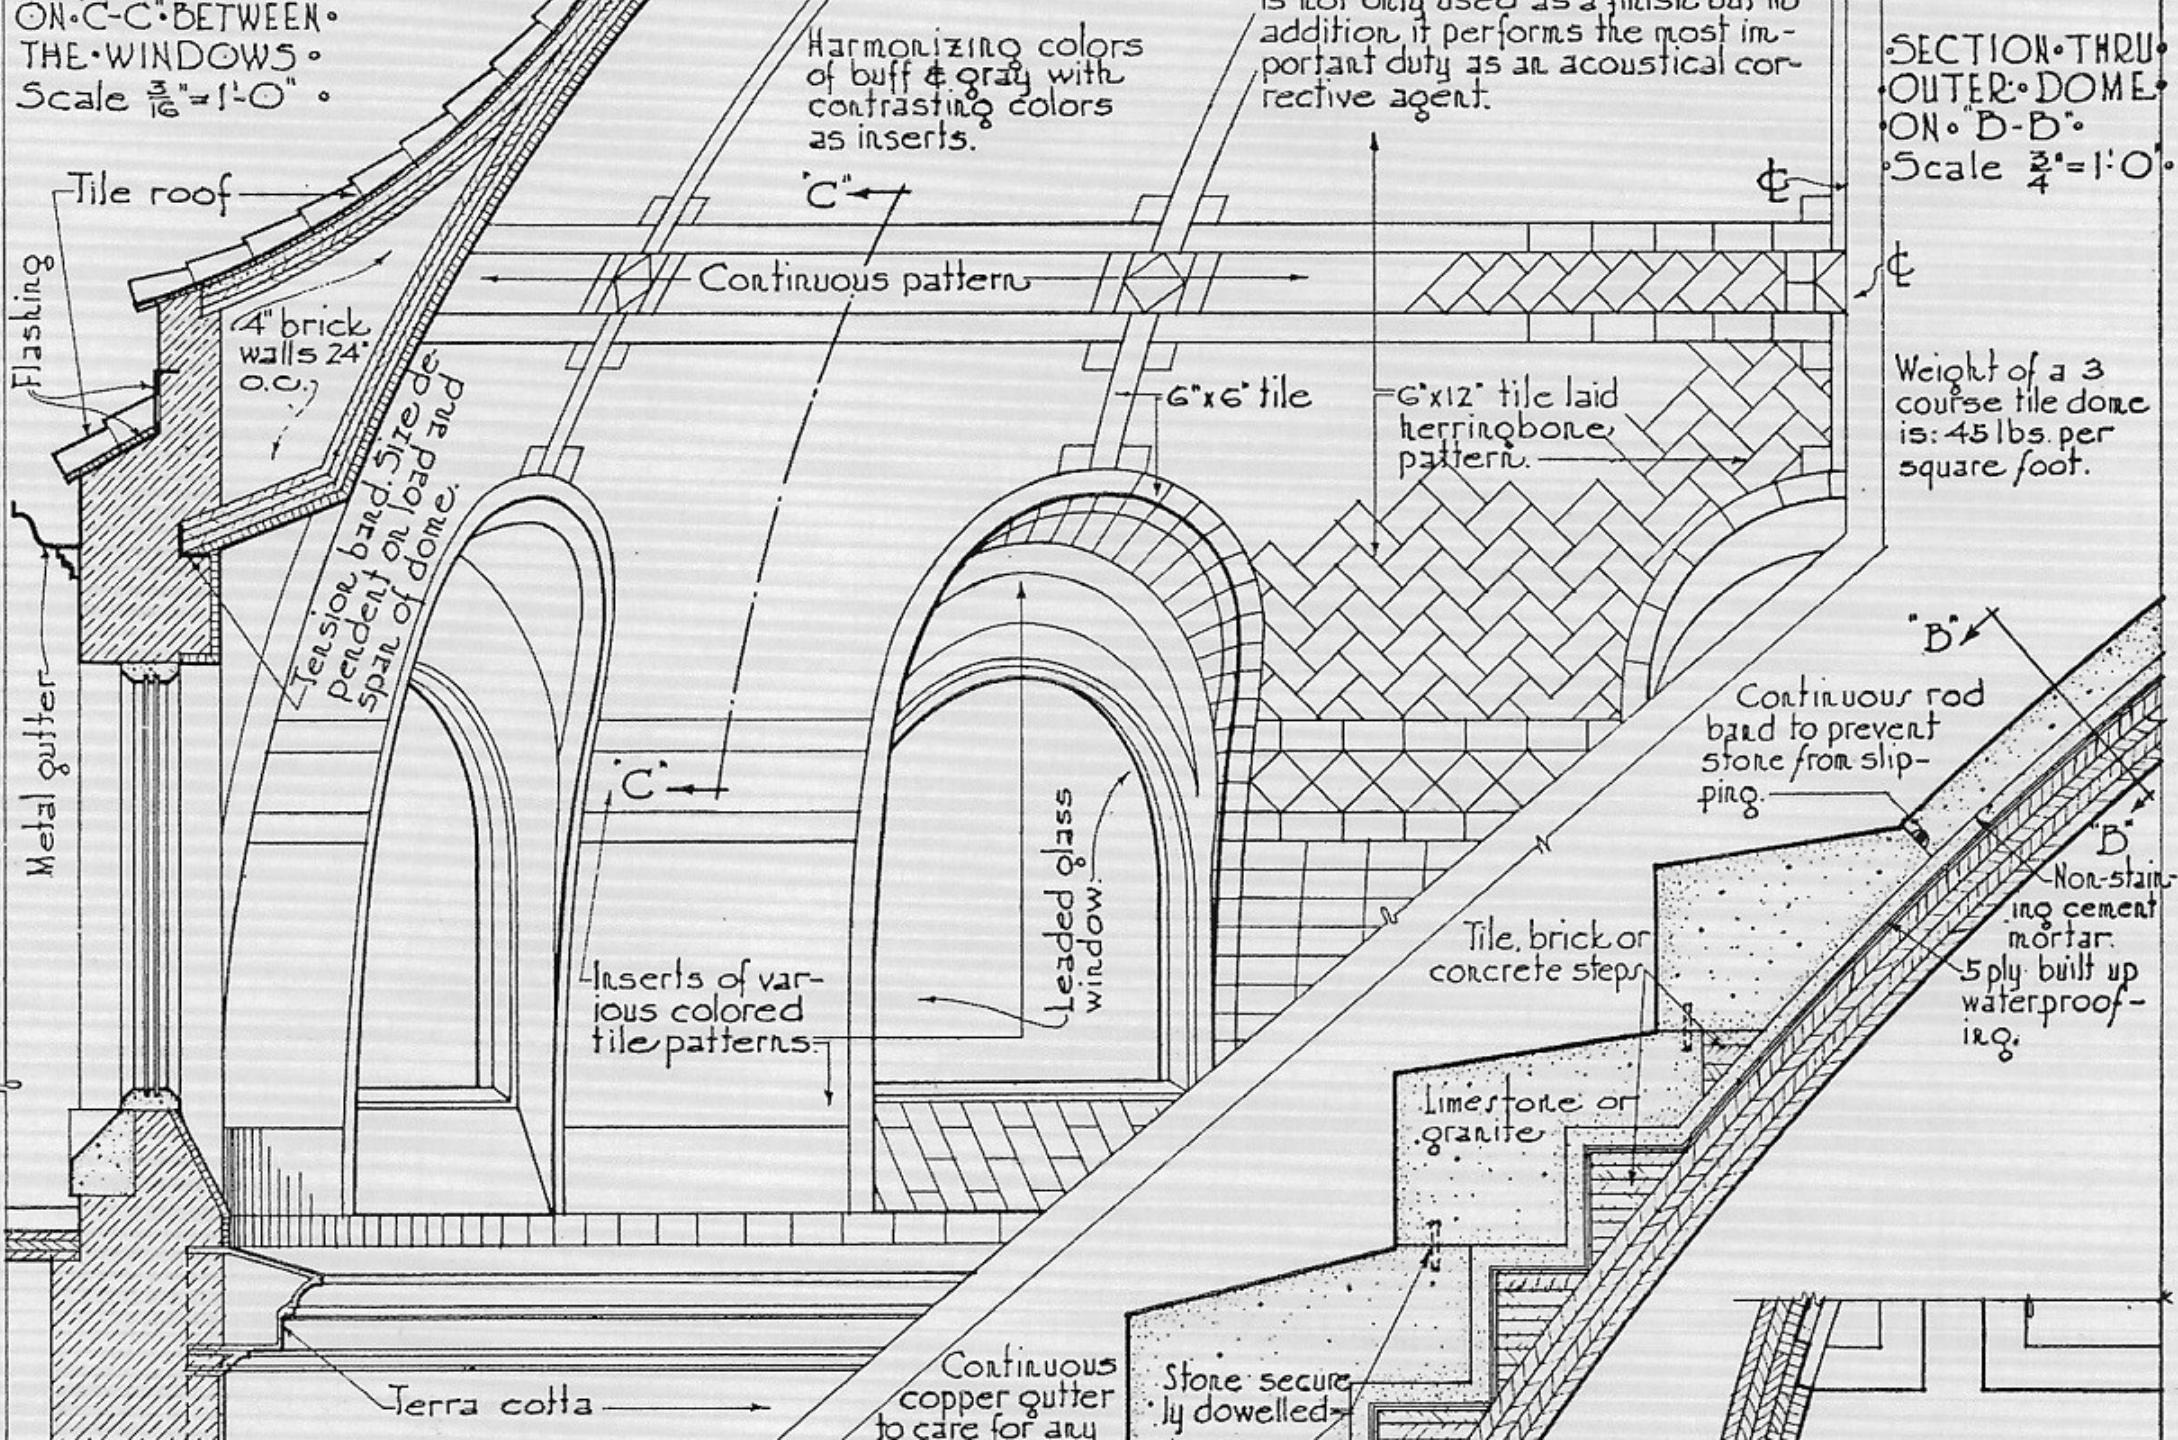

Sound absorbing tile is obtainable in several shades of gray & buff, giving a pleasing and textual effect & harmonizing with the warm colors of the adjacent stone or other material used. This stone is not only used as a finish but in addition it performs the most important duty as an acoustical corrective agent.
